

# Protect Healthcare Data, Minimize SaaS Exposure, Detect Threats

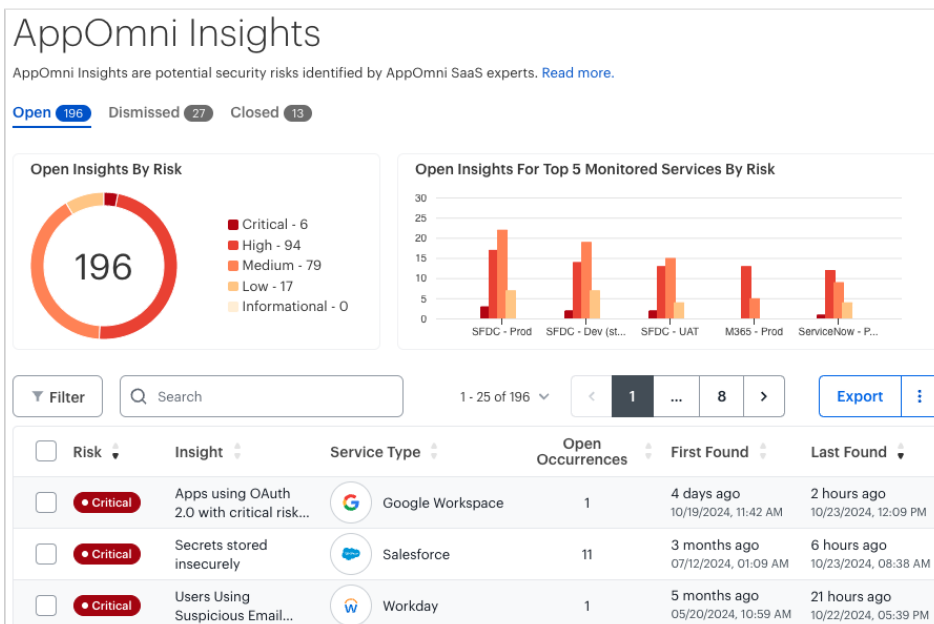

## The Challenge: Rising SaaS Complexity Increases Healthcare Data Risks

SaaS applications are essential for healthcare but introduce unique security challenges. Each platform—Salesforce Health Cloud, Microsoft 365, and ServiceNow—has specific configurations, permissions, and integrations, creating risks like misconfigurations, data leaks, and unmonitored third-party access.

Robust security controls, threat detection, and authentication are critical to protect patient data and ensure HIPAA compliance.

## Gain Control, Reduce Risk, and Simplify SaaS Security

AppOmni provides healthcare organizations with a unified solution for securing and monitoring their SaaS environments. With deep insights and automated checks, AppOmni protects patient data, maintains HIPAA compliance, and reduces exposure to threats across SaaS applications.

Gain a clear, prioritized view of critical security risks—backed by security experts—highlighting misconfigurations, suspicious activity, and policy violations to help your team focus on what matters most.

## AppOmni at a Glance

### Comprehensive Visibility

Identify misconfigurations, risky third-party apps, and access issues to protect patient data.

### Detect and Respond to Threats

Spot insider and outsider threats and compromised accounts before data is at risk.

### Secure Third-Party Connections

Monitor and manage SaaS integrations to reduce third-party risks.

### Compliance Made Simple

Generate HIPAA-aligned reports to streamline audits and ease compliance management.

### Quick Integrations

Integrate seamlessly with your existing healthcare IT infrastructure and begin securing SaaS applications from day one.

# Real Results, Trusted by Healthcare Industry Leaders

AppOmni is trusted by healthcare providers, insurance, and healthtech companies to protect their most critical applications.

### About AppOmni

AppOmni, the leader in SaaS Security, helps customers achieve secure productivity with their applications. Security teams and owners can quickly detect and mitigate threats using unmatched depth of protection, continuous monitoring, and comprehensive visibility. Trusted by 4 of the Fortune 10, AppOmni specializes in securing diverse SaaS environments. © 2024 All Rights Reserved

“The AppOmni platform itself has all the things we need, has all the integrations we need, from day one. It’s an easy tool to work with. It’s responsive, and it’s just how it should be. We have great support, and my technical team is extremely happy with it.

**Security Leader, Global Pharmaceuticals Company**

“AppOmni will help you solve the risks you never knew about that could result in a breach or data exposure. The AppOmni platform solves this in a painless, efficient, and programmatic lifecycle way.

**Advisory CISO, Trace3**

“With AppOmni, we’re able to do in a couple of days what used to take us a month. It has drastically sped up our implementation timelines while adding a higher level of security to our clients’ implementations.

**Senior Managing Director & Global Security Lead, Accenture**
